* As an experiment, some havurahniks plan to hold a participatory virtual Hallel service (with a Mourner's Kaddish) for Rosh Hodesh Nisan, on Thursday March 26 from 8a-9a EDT.

* We aim to do a modified version of "rooftop style" davening, where different participants lead different parts of the service (with one back-up navigator).

* Some psalms have multiple leaders: for example Psalm 118 is broken into different components below. One part of Psalm 116 will be repeated w/ a different melody.

* To avoid a time-lag and overstimulation, we'll ask participants to mute themselves.

* A Hebrew/English online version of Hallel is at <https://www.sefaria.org/Hallel.1?lang=bi>. Online transliterated version:

* Given we will be using different prayerbooks, rather than announce page numbers, we will periodically post what Psalm we're singing in the chat window so folks can follow along.
